

Connect Claude to LawKPIs

Ask questions about your firm in plain English and get answers from your own data in LawKPIs.

TIME

About 5 minutes

YOU NEED

Paid Claude plan + LawKPIs login

SETUP

One time, on a computer

Set up in 7 steps

1 Open Settings

In Claude, click your **name or initials** in the bottom-left corner, then click **Settings**.

2 Open Connectors

Under **Customize**, click **Connectors**, then click **Add** in the top-right corner.

3 Add a custom connector

Choose **Add custom connector**.

4 Enter LawKPIs

Name: **LawKPIs**.

MCP Server URL: <https://mcp.lawkpis.com/mcp>.

Click **Continue**.

5 Leave the settings as shown

Claude will automatically select the correct settings. Leave them as shown, **do not add any headers**, then scroll down and click **Add**.

6 Sign in to LawKPIs SECURE

This is the secure LawKPIs sign-in window (titled “Sign in to Nyxo”). Enter your normal LawKPIs email/username and password, then click **Sign in & allow**.

✓ Step 7 · You're connected — ask your first question

You're connected. Start a new Claude chat and ask a question about your firm. The first time, Claude may ask for permission — click **Allow**.

Claude will answer using your LawKPIs reports and can include a **View in LawKPIs** link.

Try these questions

› What should I be paying attention to today?

› Show me receivables over 90 days, by client.

› Export the AR aging report as a PDF.

› Which matters are at risk right now?

› Who are our top billing attorneys this quarter?

FAQ

What can Claude see?

Claude respects your LawKPIs permissions. It can only access the reports and firms available to your LawKPIs account.

Does Claude get my password?

No — your password stays with LawKPIs. You enter it in the LawKPIs sign-in window, not directly into Claude.

How do I disconnect?

Go to **Settings** → **Connectors** → **LawKPIs** → **Remove**. This does not change anything inside LawKPIs.

Quick troubleshooting

WHAT YOU SEE	WHAT TO DO
• I can't find Connectors	Custom connectors require a paid Claude plan. If your firm uses Claude Team or Enterprise, your Claude administrator may need to add LawKPIs for you.
• The sign-in window doesn't appear	Your browser may have blocked the pop-up. Allow the pop-up and try again. You can also go to Settings → Connectors → LawKPIs → Connect .
• Claude says it can't reach LawKPIs	Go to Settings → Connectors → LawKPIs → Connect and sign in again.
• Claude answers without using my firm data	Start your question with “Using LawKPIs...” and check that LawKPIs is turned on in Claude's tools for that chat.
• Setup fails	Remove the LawKPIs connector and add it again. Copy and paste the MCP Server URL rather than typing it manually.
